Only five questions for Utah- please see suggested POCs, attached. I can handle all the WSA/lwc/wilderness info.

Is everyone available at 9 am tomorrow to discuss? I am flexible, but Aaron, Nate and I are all on standby still for a drop-everything leg. affairs request tonight and may not be in the office until after 8 tomorrow morning.

Hi All:

We received a few additional questions from DOI that we need some assistance from Utah. Please see the attached list of questions and provide responses to the questions I've noted for Utah. There are a few that we (WO410) will take the lead on addressing. Please don't upload this document to the google drive folder. Just insert your responses in the attachment, one for Bears Ears and one for GSENM, and email back to me to coordinate in the WO and transmit to DOI. If at all possible, please provide the responses to these questions tomorrow (5/19).

Please let me know if you have any questions.

Thanks so much, Sally

**New information requested on Executive Order on the Review  
of Designations Under the Antiquities Act**

1) designated wilderness areas (name, acreage), wilderness study areas (name if there is one, acreage, type), and/or areas managed to preserve wilderness or roadless characteristics but not formal study area. Please note if there are none in any given monument so there is no question

(Allison can take this question- it's also already clearly provided in the BENM data and the acreages are referenced in the GSENM response)

2) outstanding RS 2477 claims within a monument – type of road claimed and history

Tyler- can you pull for both BENM and GSENM?

3) maps –

We will use the new BENM map (poster and 11x17 versions)... GSENM, which map would you like to use?

4) cultural or historical resources, particularly Tribal, located near a monument but not within the boundary that might benefit from inclusion in the monument

Tyler/Nate- Please pull info for BENM (could also reference tribal proposal boundaries)

Cindy- do you want UTSO to lead (as these are areas that would not be within GSENM currently?)

5) Other – general questions or comments
